- Feedback by alumni, parents and employers are discussed at departmental level and suggestions are taken into consideration for the development of the college.

Annexure III

i. Best Practice: Word Bank

Objectives:

- 1) To enrich the vocabulary of students
- 2) To encourage the students to refer to the dictionaries
- 3) To improve English grammar of students especially from competitive examination guidance centre
- 4) To create interest among students about English proverbs
- 5) To motivate students by inspiring quotations

The context:

It is a common experience that students from rural area are quite diffident regarding the use of English language. Insufficient vocabulary is one of the major reasons behind this. As students don't know the exact word or a phrase for a certain situation they cannot form a correct sentence in English. Therefore the department of English initiated this activity following the suggestion by Hon'ble principal Dr C J Khilare.

The practice:

The students from the Department of English were encouraged to collect a word a phrase a proverb and a quotation. Every student would refer to a good dictionary and a dictionary of proverbs/quotations from the central library or from the departmental library students would write this piece of collection on the board in the college premises so that students from all classes can read it. Students write it by rotation using coloured chalks .The content is also written on a page and the page is submitted to the teacher. Students are actively involved in this activity .The role of teacher is of member and passive observer. He guides students only when it is required. The activity is wholly student-centred.

Evidences of success:

As the activity was conducted on daily basis, students develop an interest for it gradually. An English word with a synonym and also with its meaning in Marathi attracted students. The proverbs were simple and meaningful with its Marathi counterpart .students were encouraged to note down the content on the board .After a week or two even teachers were found paying keen attention to the new words /proverbs. The vocabulary of the students is enriched .They realized the importance of dictionaries. Many of them installed an online dictionary to their smartphone.

Problem encountered and Resources Required:

As most of the students don't use smart phone installing the online dictionary to the handset was rather difficult .Handwriting of the students was not readable in the beginning .So they were encouraged to take the help of friends/teachers.

The books in library were used by the students .Surfing on the Net was also a source of information.

ii. Donation of Books to Library**Objectives:**

- 1) To encourage students to celebrate birthdays in a positive/constructive manner.
- 2) To enrich the library with variety of recent books.
- 3) To enhance the relation between library and students.
- 4) To inculcate the habit of reading among students.

The context:

Now-a-days celebrating birthdays have become a highly expensive practice among students. A student has to spend a lot of money on the celebration to please his/her peers. It evokes certain misbehaviour too. Therefore, the library appealed the students from all classes to donate the book of their interest to the library. It can be a small book of fiction or non-fiction .The library would thank the student and wish him on his/her birthday writing his/her name on the board.

The Practice:

Student from all classes were appealed by the librarian to donate a book to the library on the occasion of their birthdays .The students are expected to present the book to the librarian with his/her signature on it. The librarian, on behalf of the library, would accept the book and give him/her a receipt. The gift would be brought to the notice of other students.

Evidences of success:

The practice proved very successful. Total 25 books were donated by the students to the library in the academic year 2015-16. A separate register is maintained for such books.

Problems encountered and Resources required:

As it was expected all students did not contribute to the library .This was an option for students. The library never made it obligatory. However, the activity generated the love for reading among students.
