2 Bee Keeping and Honey Processing
Section 2
Practical No. 1

Honey Harvesting, Honey extraction with extractor, Honey Packaging

Trainer: Mr. Sudhir Kumbhar
Coordinator of BPP course

3 Part First Harvesting of Honey

4 1 Pick the right time to harvest.
On a sunny day, most bees are out foraging between the hours of 9:00 AM and 4:00 PM. Harvest the honey within this time frame so that there are relatively fewer bees to deal with.

5 2 Put on protective gear.
There is no way to completely prevent bees from attacking you when you remove the honeycombs from their hive. As a result, a full beekeeper's outfit is recommended whenever you intend to harvest honey.
